Line 25 Change in Method

There has been both a change in the enrolled actuary for the plan and a change in the business organization providing actuarial services to the plan.

The method used by the new actuary is substantially the same as the method used by the prior actuary, and is consistent with the information contained in the prior actuarial valuation reports and prior Schedules SB of Form 5500. Also, the method used by the new actuary has been applied to the prior year (using the assumptions of the prior actuary) and the absolute value of each resulting difference in normal cost, accrued liability (if directly computed under the method) and actuarial value of assets, that is attributable to the change in cost method, does not exceed five percent (5%) of the respective amounts calculated by the prior actuary for that year.
